

Change to High School and Adult 12 Transcripts

The Ministry of Education is upgrading the high school and Adult 12 transcript process. In the summer of 2024, learners will begin using the MyCreds™ | MesCertif™ portal to view and share their official *Transcript of Secondary Level Achievement*. MyCreds™ | MesCertif™ is a national initiative led by the Association of Registrars of the Universities and Colleges of Canada (ARUCC).

All new requests for transcripts will be processed through [MyCreds™ | MesCertif™](#). MyCreds™ | MesCertif™ provides fast and easy access to request and send official transcripts to academic institutions, employers, government offices and other third parties, anytime, anywhere.

How does MyCreds™ | MesCertif™ benefit students?

- Safe, secure, password-protected access
- Digitally verified official documents
- 24/7 access – anytime, anywhere
- Faster service
- Control over document sharing
- Ability to track and view activity of shared documents

More information will be forthcoming as the work on the project progresses, including how to register and training sessions for guidance counsellors and administrators.
